WARNING FROM SUICIDE VICTIM

GUYANA MASSACRE WAS SET UP BY FBI, CIA, & MAFIA TO SMUGGLE HEROIN INTO U.S. TO DESTROY THE CHURCHES AND TO ENSLAVE AMERICANS (A TERRIBLE CONSPIRACY!)

I received this frightening information early this fall, in a letter to me from a close friend who had taken her family to Guyana the year before. I will not give her name for fear her relatives will be harmed or harrassed. She told me she was scared and they would not let her leave, and if anything should happen to her that I should release this information.

She said she was one of "Daddy's" women and was very close to him, even sleeping with him. Jim Jones confided in her when she told him she was scared and upset over the "drop round" or practice suicide drills. Jones also was a little incensed that he might not survive either because some of his guards "worked for the FBI, CIA and British intelligence mind control cults, who were in control of his organization and 'told' him what to do. That he was unable to get out of their sight except when he went to bed. He asked her to get this information to someone "to be spread in the event of my death" because Jones knew my friend would be killed only if her also was killed. It opened the letter only after I read her name as one of those who had died or had been murdered. I have never been so shocked by anything in my life. They would kill me to stop this letter, so I am sending out thousands of copies anonymously and asking that all who get a copy to make 20 more copies and send them out, unsigned, to preachers, newspapers, friends, officials, Senators and Congressmen, talk shows, police stations, musicians and entertainers, labor unions, churches, radio and TV stations, 'underground' and radical papers, other groups they might call 'cults' etc. etc. Post in public places, telephone poles, bulletin boards, letters to the editors of papers etc. Send to anyone you think may investigate my story and pass this information on to others.

She wrote: "I don't now think that I am going to get out of this alive. I worry about all the beautiful children, too. Daddy hasn't been sleeping with me lately (he has many other women now) and gives me threatening looks. I truly think it is because he told me too much one night and probably wonders if I really did send you this letter. I know he plans to go to Europe soon. Maybe the whole thing was a hoax. But I feel it was not."

She told me that Jones had told her about the atomic holocaust that was being planned, but assured her that he would survive and take her with him when it was over as those who survived would need a leader. He told her one night that he was concerned that he had millions of dollars hidden away in banks in America and Europe and that soon the "Practice Suicides" would be the real thing. He said he was working with the government—the CIA people, who were using the People's Temple members as 'guinea pigs' in a mind control experiment. That if this worked, it would later be used elsewhere on a massive scale after the terrible depression came, on those who would not do what the government ordered them to do. He talked wildly for about an hour, spinning a weird and complex tale about the CIA funding and setting up this entire community as an exercise in mind and body control to be used later on other churches and groups; they were planning an awful economic catastrophy in 1979 which would enable the government to declare a national emergency and exercise powers that had been made lawful for such emergencies.

Jones told her that in addition to mind control tests, the CIA, with his help, had vast amounts of heroin hidden in the jungle, and when the real suicide order was given, 2--1/2 kilos of heroin would be hidden inside each body and smuggled into the U.S. without detection. That they had done this successfully with the bodies shipped to the states from Vietnam, and that each body would contain heroin worth 240 million dollars at street value. The plan was to get the heroin into the U.S. where it would be sold cheaply by the mafia. Some of it, Jones said, was to be stored in Ft. Knox for later use to enslave the population through drug addiction and mind control. Jones told her to 'watch the papers after the suicides', that in about 6 months the crime rate in the major cities would be so high, due to the heavy influx of cheap heroin, that the people would demand more money be put into crime prevention and the government do something about it immediately. He said this will take place about the time the stock market panic occurs, sometime in the latter part of 1979. It was planned this way by people 'high in power', mostly in Europe, to wreck the economy of the U.S., create a national panic when the factories, stores and banks closed down. The big banks were the people mainly behind this. Jones once talked about all the money in the world being taken from circulation and no one could buy food or anything else unless they had the 'government number'.

Although Jones didn't believe everything the Bible said, he did tell her that the Armageddon and the 'Mark of the Beast' was going to happen because this was all planned. The government, he said, would eventually force everyone to have a number stamped by a laser beam on their hand in order to enslave the peoples of this world. Jones revealed that the government body identification teams they always used would put the heroin into the corpses and 'special morticians' in the states would take it out. Jones said the people would really be surprised who was behind all this. He mentioned names like Rockefeller as the contest between the CIA and the mafia, Kissinger, Rothschilds etc. who had been setting up this situation for many years in order to control all the money in the world. At the same time it 'would wreck the churches', that the Guyana suicides would inflame the public to demand the government end the laws that seperated church and state.

I am a born again Christian and feel that the people should know what is happening in this country behind our backs. My friend wrote, "Remember the church movie we saw, "A Distant Thunder"? Well, Jones said it would be like that because they would try to make it happen like the Book of Revelations, because that way the Christians would accept it because they don't think there is anything they can do about it." "Daddy was very contemptuous and said, 'They're too stupid and cowardly to resist it and don't realize they could prevent it if they would quit fighting among themselves and band together and do something about it.'" The movie showed the Christians going to the guillotine rather than taking the "mark", but I don't think it has to end this way. The Beast in Revelations, said Jones, was really a number of 'secret organizations, mainly banking interests', who intend to enslave the world through computer technology and laser markings. I believe if enough people circulate this letter that an investigation can happen that will expose this whole terrible conspiracy before it can happen. Jones said there would be a real effort to get the churches quarralling and fighting with one another so they couldn't see what was coming down on them. I can't look my friends in the face. I am going mad with fear that I will be detected. You all must act NOW to save your soul, your liberty, your churches, your religious freedoms. Demand an IMMEDIATE investigation by civilians (not government or military people). Remember Kennedy and the Warren Commission. Do you really believe their story? Jim Jones may have been taken over by the devil because years back I heard him preach the gospel of Jesus Christ. I want all Christians to know that the devil has not yet gotten into all our churches because of one man's demonic possession. I want all Christians to know about the Armageddon being planned and the Mark of the Beast the bankers plan to implement in lieu of money. Anyone who takes the mark will surely die and lose his eternal soul. Demand that the bodies be inspected by civilians, not 'body squads'. They will see the bodies have all been slit open and the stomachs removed. They may have placed the heroin in the coffins, but Jones said the plan to use the corpses was safer. DEMAND AN INVESTIGATION NOW! EXPOSE THOSE IN GOVERNMENT WHO ARE TRYING TO COVER THIS WHOLE THING UP, CREATING A SMOKESCREEN TO DIVERT THE REAL TRUTH! We must make people aware. My friend said Guyana was only the beginning—they plan to do it again and again until the churches are destroyed by public opinion, laws, violence or further suicides.

I believe the story my friend told me is true. She did not use drugs and she did not return from Guyana. I saw her name listed in the newspaper. She had to be forcibly injected with poison. I knew her too well. I know she would never commit suicide. She was murdered. So was Jim Jones murdered—by the CIA and the FBI people who knew that he KNEW too much to remain alive. I ask all God-fearing Christians to do something about this NOW before it is too late. There is a terrible conspiracy going on which leads to very high places and is beyond comprehension to most of us. Guyana was just the tip of the iceberg. DEMAND A FULL AND IMPARTIAL INVESTIGATION NOW BEFORE THE REST OF THIS INSANE PLAN TO ENSLAVE US ALL CAN GO ANY FURTHER! WE ARE NOT ROBOTS.....WE ARE ALL FREE SPIRITS WITH SOULS CREATED BY GOD ALMIGHTY!

Sincerely, a loyal Christian American
